Re: Request for Clarification of Referencing System for Solid Waste Management Units
Letter from R. O. Inlow to D. J. Sanchini, May 17, 1989

Dear Mr. Schubert:

You requested a response to the request for clarification referenced above. We have prepared this draft list of Solid Waste Management Units (SWMUs) at Rocky Flats Plant. We have also prepared a historical review of all submittals of SWMU lists and an explanation for when reference numbers were changed. The submittals have been labeled as lists of waste management units in that they include CERCLA areas, interim status units, non-hazardous waste units, and proposed waste management units, as well as, SWMUs. An attempt has been made to maintain one comprehensive list of all units.

Section 3004(u) of the Hazardous and Solid Waste Amendments of 1984 (HSWA) requires that any permit issued under the Resource Conservation and Recovery Act of 1976 (RCRA) contain schedules for the cleanup of all releases of hazardous wastes or constituents from SWMUs. Accordingly, under 40 CFR 270.14 (d), a RCRA permit application must contain specific information about each SWMU.

A compliance agreement was entered into by the United States Environmental Protection Agency (EPA), the United States Department of Energy (DOE) and the Colorado Department of Health (CDH) on July 31, 1986. Under Task 2.3, DOE was required to submit to CDH "waste stream identifications for all such active waste sources, streams, and units on or before August 29, 1986. Under Task 2.4, DOE was required to "deliver a complete list of hazardous and radioactive mixed waste units, SWMU and CERCLA areas to CDH and EPA on or before September 12, 1986. Under paragraph 3 (iii), the agreement did not apply to transuranic material.

ADMIN RECCRD

SW-A-002960

The first list of waste management units and CERCLA areas was submitted on September 12, 1986. The submittal was labeled preliminary and contained two appendices. Appendix A contained the inactive units. The list was developed from the Comprehensive Environmental Assessment and Response Program, Phase 1: Installation Assessment Rocky Flats Plant (CEARP Phase 1). Units that were classified as SWMUs, or CERCLA areas were identified. Appendix B contained a list of active and planned units. Because the waste stream information available at that time was preliminary, a decision was made to include units that handled transuranic material. Thus, an attempt was made to make the list as broad as possible. It was anticipated that many of the units initially listed would be shown not to meet the definition of a SWMU once more information on the material or facility was obtained. The final report on waste stream identification and characterization was submitted on April 6, 1987.

On November 28, 1986 a RCRA Part B permit application for the storage and treatment of hazardous and mixed hazardous wastes (low level permit) was submitted to EPA and CDH. Appendix 1 of the application contained a revised list of waste management units. The list contained all the units in the September 12, 1986 submittal and additional units that had been identified through our continuing program of waste stream identification and characterization. A system of reference numbers was developed and included in the November 28 list. RCRA permitted units were assigned reference numbers less than 100. Inactive units were numbered between 101 and 299. Active units not requiring a RCRA permit (for example 90 day storage units) were assigned numbers greater than 300.

On December 15, 1987, Revision 1 of the low level permit application was submitted to EPA and CDH in response to the Notice of Deficiency received from CDH and EPA on September 28, 1987. Appendix 1 contained a revised list of waste management units. In the Record of Amendments, Table 1-RA-1 listed the units that had been added to the list and, Table 1-RA-2 listed the units that deleted from Revision 0 (the November 28 list). Units with reference numbers greater than 300 and without recorded release of hazardous waste were simply deleted in Revision 1. Deleted units with reference numbers less than 100 fell into one of three categories: (1) specifically, if the unit was proposed in 1986 and never used, it was deleted, (2) if the unit had been taken out of service after 1986, it was reassigned an inactive unit number (between 101 and 299), (3) units that were originally classified a treatment units that later determined to not require a RCRA permit were deleted from the list.

Revision 2 of the low level Part B permit was submitted on April 13, 1988. The fluidized bed incinerators (Unit 49) were removed from the list of interim status units. Additional storage capacity was added to Unit 1. A revised SWMU list was prepared as part of Revision 2 to reflect these changes.

June 16, 1989

Revision 3 of the low level Part A application was submitted on August 10, 1988. Changes in interim status were requested for several units. It was anticipated that three units would be taken out of service and would require closure. No revised SWMU list was prepared as part of Revision 3. In a letter to DOE on October 9, 1988, CDH stated that interim status units would retain interim status until closure is certified.

As a result of an interagency agreement between EPA and DOE, it was determined that wastes containing transuranic and RCRA hazardous constituents (TRU mixed wastes) were regulated by RCRA. Accordingly, a RCRA Part A application for TRU mixed wastes was submitted in October 1987 and a RCRA Part B permit application for the storage and treatment of TRU mixed wastes was submitted on July 1, 1988. Appendix 1 contained three tables of waste management units.

- a. The first was entitled "Active Units Handling Transuranic Wastes." Units not previously identified in the October 1987 Part A were listed. Some units listed in the October Part A were assigned a revised regulatory status. In such instances, the reference number was reassigned.
- b. The second was a list of waste units in the low level permit application. Units that were listed in both permit applications and those whose numbers were reassigned were indicated.
- c. The third was a list of units that were previously identified as containing TRU wastes in previous SWMU lists. It was determined that these units contained material with recoverable levels of plutonium. Accordingly, these units were reclassified as "not containing waste."

The July 1, 1988 Part B application contained a revised Part A application. It contained only those units for which a TRU Part B permit was requested. In a letter to Albert E. Whitman on December 15, 1988, CDH indicated that units that were deleted from the July 1, 1988 submittal still have interim status. As a result, units 51, 52 and, 53 have been added to the list as interim status units.

In view of this information, we have prepared an updated list of waste management units (Attachment 1). The list indicates an original reference number in the cases where it was been changed. Also the operational status and the regulatory status of each unit is indicated.

Allen Schubert - Page 4

June 16, 1989

We will be pleased to meet with you to discuss the SWMU list.

Sincerely,

ROY F. WESTON, INC.

1186		444	Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1187		444	Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1188		444	Drum for Solvent Containing Wipes	Satellite Accumulation Area	Active
1189		444	Drum for Solvent containing Wipes	Satellite Accumulation Area	Active

WASTE MANAGEMENT UNITS AT ROCKY FLATS PLANT

DRAFT LIST

REF. NUMBER	ORIG. REF. NUMBER	BLDG. NUMBER	UNIT NAME	REGULATORY STATUS	CURRENT STATUS
1190	444		Drum for Solvent Containing Wipes	Satellite Accumulation Area	Active
1191	444		Drum for Solvent Containing Wipes	Satellite Accumulation Area	Active
1192	444		Drum for Solvent Containing Wipes	Satellite Accumulation Area	Active
1193	444		Drum for Solvent Containing Wipes	Satellite Accumulation Area	Active
1194	444		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1195	444		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1196	444		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1197	444		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1198	444		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1199	444		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1200	444		Drum for Solvent Containing Wipes	Satellite Accumulation Area	Active
1201	444		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1202	444		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1203	444		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1204	444		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1205	444		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1206	444		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1207	444		Drum for Solvent Containing Wipes	Satellite Accumulation Area	Active
1208	444		Drum for Solvent Containing Wipes	Satellite Accumulation Area	Active
1209	444		Drum for Solvent Containing Wipes	Satellite Accumulation Area	Active
1210	444		Drum for Solvent Containing Wipes	Satellite Accumulation Area	Active
1211	444		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1214	444		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1217	444		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1218	444		Drum for Cyanide containing wipes	Satellite Accumulation Area	Proposed
1219	444		Drum for Acid containing wipes	Satellite Accumulation Area	Proposed
1221	444		Drum for Solvent containing Wipes	Satellite Accumulation Area	Proposed
1222	444		Drum for Solvent containing Wipes	Satellite Accumulation Area	Proposed
1224	447		Drum for solvent containing wipes	Satellite Accumulation Area	Active
1225	447		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1226	447		Drum for Solvent containing wipes	Satellite Accumulation Area	Active
1227	447		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1228	447		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1229	447		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1230	447		Drum for Solvent containing Wipes	Satellite Accumulation Area	Active
1231	447		Hazardous Waste Drums	90 Day Accumulation Area	Active
1232	447		Drums of Hazardous Waste	90 Day Accumulation Area	Active
1235	881		Drum of Non combustibles contaminated with Hazardo	Satellite Accumulation Area	Active
1236	881		Locked Cabinet Vault (Hg)	Satellite Accumulation Area	Active
1237	770		55 Gallon Drum of Kimwipes with oil and Solvents	Satellite Accumulation Area	Active
1239	111		Drums for Wipes with Solvents	Satellite Accumulation Area	Active
1240	130		Drums for Wipes With solvents	Satellite Accumulation Area	Active

WASTE MANAGEMENT UNITS AT ROCKY FLATS PLANT

DRAFT LIST

REF. NUMBER	ORIG. REF. NUMBER	BLDG. NUMBER	UNIT NAME	REGULATORY STATUS	CURRENT STATUS
1241		441	Drums for Kimwipes and petroleum distillate	Satellite Accumulation Area	Active
1242		441	Drum Petroleum Distillate	Satellite Accumulation Area	Active
1243		707	Waste Cans of Trichloroethane and dye penetrant	Satellite Accumulation Area	Active
1244		777	Drum Radiographic Developer/Fixer	Not a Waste Unit	Active
1245		881	Can for Solvent - lacquer thinner	Satellite Accumulation Area	Active
1246		881	Can for Solvent - lacquer thinner	Satellite Accumulation Area	Active
1247		881	Drums for Wipes with solvent	Satellite Accumulation Area	Active
1248		881	Bottles for solidified acidic solutions, organics,	Satellite Accumulation Area	
1249		881	Drum for solvent containing wipes	Satellite Accumulation Area	Active
1250		881	Bottles for liquid organic waste	Satellite Accumulation Area	Active
1251		881	Drum for solvent containing wipes	Satellite Accumulation Area	Active
1252		881	Bottles for liquid organic wastes	Satellite Accumulation Area	Active
1253		881	Drums for solvent containing wipes	Satellite Accumulation Area	Active
1254		881	Bottles for liquid organic waste	Satellite Accumulation Area	Active
1255		460	Drum for Wipes with solvent	Satellite Accumulation Area	Proposed
1256		883	pyrfines from cutoff saw	Satellite Accumulation Area	Active
1257		444	Cans for Magnesium chips	90 Day Accumulation Area	Active
1258		444	Drums for Wipes with solvent	Satellite Accumulation Area	Active
1259		444	Wipes containing solvent	Satellite Accumulation Area	Active
1260		444	Waste Solvents and Acids	90 Day Accumulation Area	
1261		444	Drums for Wipes with solvent	Satellite Accumulation Area	Active
1262		444	Drum for waste solvent	Satellite Accumulation Area	Active
1263		447	Drum for wipes containing solvent	Satellite Accumulation Area	Active
1265		549	Drum for kimwipes with solvents, cleaners and lubr	Satellite Accumulation Area	Active
1266		750A	Drum for wipes with alcohol, WD-40, other misc lub	Satellite Accumulation Area	Active
1267		130	Drum for Trimsol coolant with traces of trichloreth	Satellite Accumulation Area	Active
1268		774	Drum for waste solvents that are wiped up from spi	Satellite Accumulation Area	Active
1269		444	Drum for waste Etching acid	Satellite Accumulation Area	Proposed
1270		460	Fixer	Precious Metal Recovery	Active
1271		460	Fixer	Satellite Accumulation Area	Active
1272	9.01	460	Solvent Dumpster #1	90 Day Accumulation Area	Active
1273	9.02	460	Solvent Dumpster #2	90 Day Accumulation Area	Active
1274	6	447	Chip Drum Storage Area	90 Day Accumulation Area	Active
1276		453	Mixed Waste Storage	90 Day Accumulation Area	Active
1277		460	Electrolyte Recovery Process	Precious Metal Recovery	Active
1278	8.01	460	Acid Dumpster #1	90 Day Accumulation Area	Active
1279	8.02	460	Acid Dumpster #2	90 Day Accumulation Area	Active
1300		771	Shipping Tank 208	Interim Status (TETF)	Active
