Gentlemen:

Enclosed please find for your review the first revision to the final data validation plan from the Rocky Flats Environmental Restoration Sample Management Office.

This revision addresses general and specific comments from the EPA review of the draft document. This revision incorporates the levels of inspection as defined in Revision 0, and a slightly modified version of the simpler approach proposed by EPA.

Please schedule a meeting for the last week of October to discuss this revision to the data validation plan. A meeting on this subject will expedite final concurrence of this plan and allow a more timely implementation.

Please contact Norma Castaneda of my staff at 966-4226 for information concerning the meeting place and date.

Sincerely,

James K. Hartman
Assistant Manager for Transition
and Environmental Restoration
