SUBJECT: PUBLIC MEETING ON RFP WATER MANAGEMENT - FDH-015-91

The public meeting for the SWMP is scheduled to be held at the Westminster Recreation Center on Thursday, May 30th (see attached). John Rampe will lead off with 15-20 minutes of comments. Susan Nachtreb of Westminster is being offered a chance to give the Cities view. There is consideration that no questions will be taken, but tables will be provided for people to sit and talk one-on-one with the people listed below.

- Steve - Water quality and daily operations of ponds
- Eric - Engineering
- David - Regulatory requirements (as discussed in the SWMP)
- Keith - Technical stuff

Other people who can attend are encouraged to be "on call" if someone asks a question that would be in their specialty area. This is to be as informal as possible.

Members of the press have been given personal invitations. We hope that the public attends and takes advantage of this chance to see the quality of people who work on water management at RFP.

There will be a premeeting on Tuesday, May 21, at 1:30-2:30 p.m. in the T130B conference room for Keith and the other Program Managers, Steve, Eric, David, Farrel, John Rampe, and Mike McHugh. Mike is arranging the logistics for the meeting.

ROCKY FLATS PLANT

PUBLIC COMMENT PERIOD

Draft Surface Water Management Plan

The U.S. Department of Energy Rocky Flats Office has developed a draft Rocky Flats Surface Water Management Plan (SWMP) to integrate water quality management activities and address regulatory requirements and public concerns in an effective, unified manner. The plan will address specific issues related to surface water management and will be adapted to address public comments and reflect changing conditions and regulations at RFP.

A 60-day comment period for the plan begins Monday, May 20, 1991 and ends Saturday, July 20, 1991. Copies of the Rocky Flats Surface Water Management Plan are available for review at the following reading rooms:
