Subject: TRANSMITTAL OF THE 1995 ANNUAL ACTIVITY REPORT - CCJ-064-96

Action: Submit to DOE

Draft correspondence for submittal of the 1995 Annual Activity Report to the Department of Energy, Rocky Flats Field Office (DOE, RFFO) and the Colorado Department of Public Health and Environment (CDPHE) is enclosed. The enclosed report must be submitted in accordance with the enclosed request from CDPHE. Hazardous waste storage, shipment, and treatment activities at the Rocky Flats Environmental Technology Site for the Calendar Year 1995 are included in the report.

Submittal of the report to DOE, RFFO no later than March 15, 1996, will complete External Milestone No. 622 in Work Package 13801. Please note that the total volume of waste managed at the Site in 1995 is approximately 20% less than in 1994. This is mainly due to efforts to minimize the amount of liquid waste to be treated in Building 374. Therefore, this should result in approximately a 20% savings in hazardous waste activity fee from the previous year.

Thank you for your prompt attention in this matter. If you have any questions or require additional information, please contact Dan Kunz at extension 5879.
