

INTEROFFICE MEMORANDUM

DATE: March 19, 1996

TO: Distribution

FROM: Gary Konwinski, Technical Assurance, T130F, X2729 

SUBJECT: **Request for Comments on Plutonium Migration Study/Draft Report**

Attached to this memorandum is a the final copy of the initial, and only, deliverable associated with the plutonium migration study, entitled: "Plutonium Association with Selected Solid Phases in Soils of Rocky Flats, Colorado Using Sequential Extraction Technique." Your review of this document is essential to assure that the Site closure strategy benefits form this product. Please comment directly on the document. I will compile the comments, and arrange a meeting to resolve conflicting viewpoints, if necessary.

I would appreciate receiving your comments on or before March 31, 1996. Thank you for your prompt consideration and support in this matter.
