Regulatory Contact: Andrew Putnam, Database Administrator
Phone: 303-692-3424

Agency: CDPHE

Purpose of Contact: Teleconference to discuss continuous surface water FLOW data.

Discussion

Documentation of Teleconference:
CDPHE would like continuous monitor field results (surface water FLOW) data from 1997 through September 30, 2001.
Data is collected in five-minute intervals from 50 monitoring stations with only the 15 minute data uploaded to the FLOW database. Bob suggested that if CDPHE needs detailed data at the five-minute intervals that this data can be provided as needed. Andy would like the data on a computer disc in the same format as provided on ISEDS. Any new data would be retrieved from ISEDS when restored to production on the Internet on a quarterly basis. Andy would like this data by mid-October 2002. Andy said the FLOW data would take priority over delivery of the groundwater data.
