REGULATORY CONTACT RECORD**

Date/Time: March 3, 2003

Site Contact(s): Marla Broussard, Susan Serreze
Phone: 303-966-6007, 303-966-2677

Regulatory Contact: Gary Kleeman
Phone: 303-692-3429

Agency: EPA

Purpose of Contact: Consultative Process – Draft ER RSOP Notification for 903 Inner Lip Area and draft IASAP Addenda for IHSS Groups 500-4, 400-3, and 700-3

Discussion

The draft ER RSOP Notification for the 903 Inner Lip Area was discussed. The area of concern consists of the IHSS 155 area west of the road as modified by the sampling locations to the south of IHSS 155 where plutonium concentrations in surface soil are greater than 50 pCi/g. The accelerated action will consist of removal of native soil with plutonium contamination to less than 50 pCi/g or to 3 feet whichever ever comes first. Work will not be conducted under a tent structure. Project logistics will be resolved and documented in work control documents. Further discussion and documentation is required prior to work initiation to reach agreement on cell/area designation and confirmation sampling requirements.

The IASAP Addendum IHSS Group 500-4 – IHSS 117 2 will describe statistical sampling at this IHSSs. PCOCs are metals and radionuclides as well as VOCs in the northeastern corner of the site. The IASAP Addendum IHSS Group 400-3 – UBC 444 will describe statistical sampling and biased sampling at the IHSS Group UBCs and outside IHSSs. The IASAP Addendum IHSS Group 700-3 – UBC 776 will describe statistical sampling and biased sampling at the IHSS Group UBCs and outside IHSSs.
