Dear Gentlemen:

Enclosed for your review are draft final copies of the Applicable or Relevant and Appropriate Requirements (ARARs) and the Soil Action Levels Technical Memoranda (TM).

The alternatives developed during the Remedial Investigation/Feasibility Study (RI/FS) for the final action at the Rocky Flats Environmental Technology Site will be evaluated against the requirements listed in the ARARs TM. We informally provided to you the ARARs TM in March 2003 and you noted the absence of state or federal landfill closure regulations within the ARARs TM. We believe these requirements are best identified within the appropriate Interim Measures/Interim Remedial Action Plan for the Present and Original Landfills. The Soil Action Levels TM documents how the action levels for the accelerated actions contained within the Rocky Flats Cleanup Agreement Attachment 5 were selected.

We would like to receive comments from your agencies by July 16, 2003. We will then revise the documents as appropriate and provide final copies for your approval by July 24, 2003. Please contact me at (303) 966-2282 or Scott R. Surovchak at (303) 966-3551, if you should have any questions or comments.

Sincerely,

Joseph A. Legare
