Discussion

Per a verbal request to me on February 11, 2004, for precipitation data for water years 1998-2002 from gaging station GS01 (precipitation gauge 58). I provided five zip files for each water year in individual emails, supplied by the KH Water Programs Group. Each zip file contained Microsoft Excel files for each month. Each monthly file contained the raw precipitation data that he requested along with summary data sheets and charts.
