Discussion

I notified Andy that the ISEDS data refresh of June 3rd was completed and ISEDS is available again for agency use. I reported that the updated files now contained the missing records that were reported to me on May 11, 2004. Several surface water and groundwater data files that had contained either zero records or truncated records (partial) now contain full data sets. Andy responded that he would have one of his personnel confirm that the missing data is contained in the files next week.
