Dear Mr. Aguilar and Mr. Gunderson:

Enclosed are copies of the Rocky Flats Environmental Technology Site (Site) Automated Surface Water Monitoring Report: Water Year (WY) 2003 Annual and Water Year 2004 Source Evaluations for Points of Evaluation GS10, SW027, and SW093. One paper copy and one electronic copy on a compact disk are being provided to each Agency.

This Report provides a comprehensive, detailed summary of the automated surface water monitoring at the Site. This monitoring fulfills the applicable requirements of the Integrated Monitoring Plan (IMP). The Report is organized to follow the framework of the IMP. The Report presents the data collected to satisfy selected surface water monitoring objectives implemented at the Site in accordance with the Rocky Flats Cleanup Agreement and the IMP. The source evaluation presentation in Section 6 is intended to augment information previously provided to your agency in response to reportable values at Points of Evaluation GS10, SW027, and SW093.

If you have any question, please contact John Stover at 303-966-9735.
