Phone: 303-966-5938

Regulatory Contact: John Hranac
Phone: 303-692-3586

Agency: Colorado Department of Public Health & Environment, Water Quality Control Division

Purpose of Contact: To obtain clarification on who has to be notified to fulfill the requirements of the Section 401 Certification Requirements State of Colorado Section (A)(6)

Discussion

The Rocky Flats Environmental Site was issued an Individual 404 permit by the United States Army Core of Engineers. As part of the permit the State of Colorado provided Section 401 Certification Requirements, which requires the permittee to notify various classes of entities or people downstream of the permitted action 15 days prior to commencement of the project (item (6)). It was not clear how to obtain an absolute list of all the entities or people to be notified in satisfaction of this requirement. It was proposed that notification to the Jefferson County Health Department, the City and County of Broomfield, and the City of Westminster would fulfill all the notification requirements of the 401 Certification. John Hranac, CDPHE Water Quality Control Division, after reviewing a map of Walnut Creek and the Big Dry Creek drainage, agreed that the proposed notification fulfills all the 401 Certification Requirements for notice. John also informed me that Amimee Majewski was the Water Quality Control Division person who worked on the Site's 401 Certification and she would tell me the same thing.
