

## DOE Lessons Learned Template

Title: Correct shipping containers

Date: 07/06/05

Identifier: 2005-RF-19

Lessons Learned Statement: Use of the correct shipping container could result in significant cost savings.

Discussion of Activities: Initially the site was packing items from the demolition activities such as metal piping into wooden crates mounting on pallets. The site switched to a banded cardboard box mounted on a pallet. This container met performance specifications and resulted in a ten-fold cost reduction in shipping containers.

Analysis (May be incorporated into the Discussion):

Recommended Actions:

Estimated Savings/Cost Avoidance (if applicable):

Originator: Jeff McMillan

Contact: Gary Morgan

Keywords: Waste Shipping
