RE: A2,P1 Certification Report

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Area 2, Phase I (A2,P1) certification report for the Active Flyash Pile Footprint and adjacent area east of the south construction road. The document provides the certification results for the above portion of A2,P1

The certification report appears adequate and the data support U.S. DOE's conclusion that final remediation levels for soil were successfully achieved in A2,P1 for the Active Flyash Pile Footprint and adjacent area east of the south construction road. Therefore, U.S. EPA approves the A2,P1 certification report. U.S. EPA does have a few minor comments on the report, which have been enclosed and require change pages.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric  
Remedial Project Manager  
Federal Facilities Section  
SFD Remedial Response Branch #2
