Terry Hagen	Jenny Mailander	Keith Wilkerson
Renee Holmes	Steve Oberjohn	Pete Yerace
John Homer	Craig Straub	

I made contact with Don Henne to make him aware of the upcoming presentation by FERMCO and the Natural Resource Trustees to the Natural Resource Subcommittee of the Fernald Citizens Task Force. I informed Mr. Henne that the presentation would be held on January 23, 1996 at 7:00 near the Fernald Site. I gave Mr. Henne a short summary of what the presentation would entail. I informed him that representatives from both DOE and Ohio EPA have indicated that they would be in attendance and the invitation was certainly extended to the DOI as well. Mr. Henne was appreciative of the invitation, but indicated that he had a prior conflict on that date and would not be able to attend. Mr. Henne expressed support for the presentation and indicated that if possible he would be interested in reviewing the overheads. I informed him that we should be able to fax the overheads to him later in the week. I also offered to convey any thoughts that he would like expressed at the meeting if he felt it was appropriate or he could certainly convey them through the other Trustees. He indicated that he doubted he would have anything he wanted expressed, but said he would give it some thought and let us know.

I also discussed our efforts related to getting a Fact Sheet out to the public on Natural Resource Trusteeship and asked if we could also fax a draft copy of that document for his review in the near future. He indicated that he would be willing to review the Fact Sheet when it is ready.

RECORD OF TELEPHONE CONVERSATION TC:EC(NRM):96-0002 - Continued

Date: January 16, 1996
From: Eric Woods
To: Don Henne

Mr. Henne also volunteered to participate in a public meeting (with the other Trustees) if it became appropriate and there was interest expressed in it by the public. I indicated that I thought his attendance would be very beneficial should the need for a meeting like that arise. I indicated that we would keep Mr. Henne informed as to the level of interest expressed by the public in a meeting involving the Trustees.

I thanked Mr. Henne for his time and we concluded our conversation.
