Mr. Tom Schneider, Project Manager  
Ohio Environmental Protection Agency  
401 East 5<sup>th</sup> Street  
Dayton, Ohio 45402-2911

Dear Mr. Saric and Mr. Schneider:

### **SUBMITTAL OF DRAFT DATA PACKAGE FOR BASELINE GROUNDWATER CONDITIONS AT THE ON-SITE DISPOSAL FACILITY CELLS 1, 2, AND 3**

The purpose of this letter is to transmit, for your review and approval, the draft Data Package for the Baseline Groundwater Conditions at the On-Site Disposal Facility(OSDF), Cells 1, 2, and 3. The purpose of this data package is to document the results of the baseline groundwater monitoring activities associated with the OSDF for Cells 1, 2, and 3 through December 2000. These data were collected per the requirements of the Groundwater/Leak Detection and Leachate Monitoring Plan (GWLMP) and subsequent agreements established with the United States Environmental Protection Agency (USEPA) and Ohio Environmental Protection Agency (OEPA). These subsequent or additional agreements were reached during the comment resolution process after the submittal of the draft Technical Memorandum for OSDF Cell 1 baseline groundwater conditions, September 1998. Additionally, this package has been developed to help fulfill the Applicable or Relevant and Appropriate Requirements (ARAR) to the final Record of Decision for Remedial Actions in Operable Unit 2.

As previously discussed, the pre-existing contamination at the site has complicated the interpretation of the baseline groundwater data. As a result, it is suggested that we schedule a meeting in the coming weeks to discuss the data package and develop a path forward.

JAN 16 2002

Mr. James A. Saric  
Mr. Tom Schneider
