RE: A2,P2 Implementation Plan

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Area 2, Phase 2 (A2,P2) implementation plan. The document provides a plan for removal of soil at-and below-grade structures and debris in Subarea 1, Subarea 2 and Subarea 3. No remedial action is planned for Subarea 4.

The implementation plan appears technically adequate and is consistent with other similar documents. However, the document does not include a base map depicting the Subareas of A2,P2 included and excluded from the implementation plan. These subareas and any other areas included or excluded from the implementation plan should be included in a base map.

Therefore, U.S. EPA approves the A2,P2 implementation plan. However, U.S. DOE should submit a revised base map for A2,P2.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric  
Remedial Project Manager  
Federal Facilities Section  
SFD Remedial Response Branch #2
