 Dayton, Ohio 45402-2911

Dear Mr. Jablonowski and Mr. Schneider:

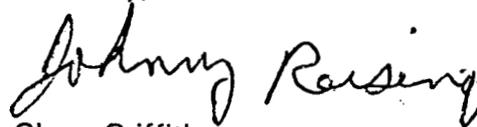

SILOS DOME PENETRATION AND RISER INSTALLATION PLAN

Enclosed for your review and approval is the Silos Dome Penetration and Riser Installation Plan for the Accelerated Waste Retrieval (AWR) Project. The detail of this plan was shared with you during the meeting on June 12, 2003. The enclosed plan incorporates revisions based on final design of the slurry pump and sluicing risers, and of methodology for cutting the penetrations in the silos domes.

The demonstration of the cutting the dome on Silo 4 was completed in June of 2003. The Silos Dome Penetration and Riser Installation Plan incorporates the lessons learned from the demonstration. During the months of June through August 2003, practicing riser installations for the pump and sluicing modules on Silo 4 dome will continue to increase the proficiency and to ensure safe and efficient installation of the risers on Silos 1 and 2. The project schedule indicates that the first dome penetration and riser installation on Silo 2 will start in mid-September of 2003.

If you have any questions, please contact Nina Akgündüz at (513) 648-3110.

Sincerely,

for 
 Glenn Griffiths
 Acting Director
