RE: A6 OU 1 Stockpile
IRDP

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) draft Integrated Remedial Design Package (IRDP) for the Area 6 (A6) Operable Unit (OU) 1 stockpile. This document details plans for remediating soil, sediment, perched water, at- and below-grade structures, and debris in the A6 OU 1 stockpile.

The document appears technically adequate and consistent with similar documents. However, several of the drawings and technical specifications listed in Appendix D are not included in the plan. Specifically, Sections 02668, 15060, 15160, 16050, 16170, 16370, and 16462 are not included and should be submitted for review.

Therefore, U.S. EPA disapproves the A6 OU 1 stockpile IRDP. U.S. DOE must submit the missing drawings and technical specifications from Appendix D within thirty (30) days receipt of this letter.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
Federal Facilities Section
SFD Remedial Response Branch #2
