RE: A2,P2 CDL and
Certification PSP

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) draft Certification Design Letter (CDL) and draft Project Specific Plan (PSP) for certification of Area 2, Phase 2 (A2,P2)-Subareas 1, 2, and 4. These documents present the certification approach for demonstrating that the soil in these areas meet the final remediation levels.

The documents appear technically adequate and are consistent with similar CDL and certification PSP documents. Therefore, U.S. EPA approves both the A2,P2-Subareas 1, 2, and 4 CDL and PSP for soil certification.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric
Remedial Project Manager
Federal Facilities Section
SFD Remedial Response Branch #2
