RE: Paddys Run Corridor Real
Time Scan RTC and PSP

Dear Mr. Reising:

The United States Environmental Protection Agency (U.S. EPA) has completed its review of the United States Department of Energy's (U.S. DOE) Responses to Comments (RTC) and revision 2 of the Project Specific Plan (PSP) for the real-time scan of the Paddys Run corridor and associated drainage features. This PSP provides the details of radiological scanning of Paddys Run, two adjacent oxbow areas, the Storm Sewer Outfall Ditch, and Pilot Plan Drainage ditch corridor.

U.S. DOE has adequately responded to U.S. EPA's previous comments and incorporated them into the revised document. Therefore, U.S. EPA approves revision 2 of the Paddys Run corridor real-time scan PSP.

Please contact me at (312) 886-0992 if you have any questions regarding this matter.

Sincerely,

James A. Saric -
Remedial Project Manager
Federal Facilities Section
SFD Remedial Response Branch #2
