**INTEROFFICE
MEMORANDUM**

TO: Attendees/Distribution
FROM: Doug Steffen, RMRS Project Management, Bldg. T130F, X2164
DATE: May 5, 1995
SUBJECT: Meeting Minutes: DOE/CDPHE Comments on Draft PAM for Building 123 Decommissioning

1. K-H had distributed the initial draft (Rev. 0) of the PAM to DOE, CDPHE, and K-H for comments. The purpose of this meeting was to solicit informal comments from the reviewers.
2. Both DOE and CDPHE indicated that the document needed more detail in the hazards present in the building; specifically, what kind of contamination is present and where it is located. In addition, more information should be provided on how the hazards will be abated. Enough information should be provided that the public can see that public health and safety and the environment will be protected.
3. DOE and CDPHE also felt that the scope of the document should be expanded to include decontamination activities and that a description of decontamination activities should be included in the document.
4. Extent of information in the document was driven by the assumption made by RMRS that the scope of the PAM covered demolition activities only. Therefore, contamination present in the building would be removed prior to those activities covered by the PAM. RMRS agreed to incorporate the comments received at the meeting.
5. K-H (Air Quality) requested more detail relative to the distribution of contamination in order to calculate potential air quality impacts due to the demolition activities.
6. RMRS understood that the next draft of the PAM would include the following:
 - Where contamination data are currently available or will be available in a reasonable period of time (about 2 weeks), those data will be incorporated into the document. The results of the contamination surveys will be presented in the PAM in summary form.
 - In cases where contamination data will not be available, the PAM will include a description of how the data will be obtained.
 - A description of decontamination activities will also be included.

ADMIN RECORD

B123-A-00116

V 2

7. RMRS agreed to redistribute the revised PAM to DOE and CDPHE to ensure that comments received have been properly incorporated before the document is issued formally for review.

Attendees:

Mary Aycock	RMRS/SEG
John Chapin	RMRS/K-H
Bill Fitch	DOE RFFO
Chris Gilbreath	CDPHE
Gary Guinn	RMRS
Edd Kray	CDPHE
Carol Patnoe	K-H
Doug Steffen	RMRS

Distribution:

Kent Dorr	K-H
