**REQUEST FOR APPROVAL OF "RCRA STABLE" STATUS FOR ROOM 184 VAULT IN BUILDING 771 - TAH-016-99**

Room 184 Vault is currently included in the Rocky Flats Environmental Technology Site RCRA Permit as a container storage area within RCRA Unit 771.1. Rocky Mountain Remediation Services (RMRS) requests that a letter be submitted to the Colorado Department of Public Health and Environment (CDPHE) proposing that Room 184 Vault be accepted as "RCRA Stable". Room 184 Vault will support the new size reduction facility in Room 183 for D&D activities under the *Building 771 Decommissioning Operations Plan (DOP)*. A copy of the current permit drawing for Room 184 Vault is attached; all shelving in the room has been removed.

The following conditions currently exist in Room 184 Vault, which fulfill the requirements for "RCRA Stable" status:

- All hazardous waste containers have been removed from the room, and the Waste and Environmental Management System has been updated to indicate no container storage.
- Inspection records indicate that no spills or leaks have occurred in the room since it was established as a RCRA storage area.
- No staining or waste residuals are visible on the floor of the storage area.

The Site requests that Room 184 Vault in Unit 771.1 be deemed "RCRA Stable" and that weekly RCRA inspections be terminated. Operation of the size reduction facility will result in the generation of both hazardous and non-hazardous wastes which will be managed per the applicable requirements of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) and the DOP.

A draft letter to CDPHE is attached for your use. Please submit this request for approval of "RCRA Stable" status for Room 184 Vault at your earliest convenience.

A permit modification request which will include the intended future use of Rooms 183 and 184 Vault will be submitted to CDPHE under separate cover. Operation of the new size reduction facility will commence after the permit modification request is approved by CDPHE.

REQUEST FOR APPROVAL OF "RCRA STABLE" STATUS FOR ROOM 184 VAULT IN  
BUILDING 771 - KSN-XXX-99

Dear Mr. Scheiffelin:

Room 184 Vault is currently included in the Rocky Flats Environmental Technology Site RCRA Permit as a container storage area within RCRA Unit 771.1. Kaiser-Hill Company, L.L.C. and the U.S. Department of Energy, Rocky Flats Office, request that Room 184 Vault be accepted as "RCRA Stable". Room 184 Vault will support the new size reduction facility in Room 183 for D&D activities under the *Building 771 Decommissioning Operations Plan (DOP)*. A copy of the current permit drawing for Room 184 Vault is enclosed; all shelving in the room has been removed.

The following conditions currently exist in Room 184 Vault, which fulfill the requirements for "RCRA Stable" status:

- All hazardous waste containers have been removed from the room, and the Waste and Environmental Management System has been updated to indicate no container storage.
- Inspection records indicate that no spills or leaks have occurred in the room since it was established as a RCRA storage area.
- No staining or waste residuals are visible on the floor of the storage area.

The Site requests that Room 184 Vault in Unit 771.1 be deemed "RCRA Stable" and that weekly RCRA inspections be terminated. Operation of the size reduction facility will result in the generation of both hazardous and non-hazardous wastes which will be managed per the applicable requirements of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) and the DOP.

A permit modification request which will include the intended future use of Rooms 183 and 184 Vault will be submitted under separate cover. Operation of the new size reduction facility will commence after the permit modification request is approved.

If you have any questions, please contact Tom Baker of Rocky Mountain Remediation Services at 303-966-4329.
