TRANSMITTAL OF THE CLOSEOUT RADIOLOGICAL SURVEY REPORT FOR BUILDING 779, ADMINISTRATIVE AREA - BWW-035-99

Enclosed are four copies of the Closeout Radiological Survey Report for Building 779, Administrative Area, for Rocky Flats Field Office (RFFO) and Colorado Department of Public Health and Environment (CDPHE) review and approval. Consistent with the Rocky Flats Cleanup Agreement (RFCA) consultative process, the document incorporates input and comments received from RFFO, CDPHE and Environmental Protection Agency (EPA), on the draft report submitted previously. The report demonstrates that the Administration area of Building 779 meets free release criteria and is ready for demolition.

We would appreciate notification of your transmittal of the document to CDPHE, and of its subsequent approval, in order that timely demolition of B729 can be initiated.

If you have any questions, please contact myself on extension 3432 or John Whiting on extension 7592.
