**NOTICE OF TERMINAL POND DISCHARGE - NPC-027-98**

Rocky Mountain Remediation Services (RMRS) is providing notification to the Colorado Department of Public Health & Environment of the direct discharge of Pond A-4 at the Rocky Flats Environmental Technology Site. Pre-discharge samples from Pond A-4 were collected by your staff on August 10, 1998, and analytical results from the samples indicate that water quality is acceptable. Discharge of Pond A-4 will begin on August 26, 1998, and is expected to be complete on September 7, 1998.

It is anticipated that the direct discharge from Pond A-4 will release approximately 17.8 MG of water. Appropriate Rocky Flats Cleanup Agreement (RFCA) compliance point sampling at GS11 (below A-4) and GS03 (Walnut Creek and Indiana Street) will be collected during the discharge, as well as the required NPDES samples for Pond A-4.

If you have any questions or concerns, please contact Leslie Dunstan at 966-2002.
