1995 ANNUAL PRAIRIE DOG RELOCATION PERMIT REPORT - AMP-192-96

In compliance with the Prairie Dog Relocation Permit granted to Marcia B. Murdock of RMRS, we hereby submit the relocation report due to the Colorado Division of Wildlife by January 15, 1996. A total of three black-tailed prairie dogs were relocated from a colony located in the SW 1/4, NW 1/4 of Section 12, T. 2 S., R. 70 W. to a colony located in the NW 1/4, NW 1/4 of Section 1, T. 2 S., R. 70 W, both at Rocky Flats Environmental Technology Site (RFETS) in Jefferson County, Colorado. Relocated prairie dogs included 1 male and 1 female adults captured and relocated on March 18, 1995, and 1 female adult captured and relocated on April 28, 1995. The female animals were evaluated for evidence of reproductive activity prior to relocation, and no evidence of pregnancy, recent birth, or lactation was present. These were the only three prairie dogs known to be present at the RFETS. The recent plague epizootic has extirpated all other prairie dogs at RFETS.

Should you require further information, Ms. Murdock may be reached at RMRS, Rocky Flats Environmental Technology Site, Building T130B, P. O. Box 464, Golden, CO 80402-0464, or by telephone at (303) 966-3560.
