8. Disposition

1 S Page 4, line 4 - Why is this procedure only going to be used for OU-2? Why would a DMR be required to use it at other locations? I suggest that the reference to OU-2 be deleted.

2 S Page 4, Line 9 - Change "EG&G Rocky Flats Inc" to "M&O Contractor".

3 S Page 5, Line 5 - Change "OU2" to "the appropriate project".

4 S Page 6, Line 36 - Explain how earthworms could get sampled and why we would test earthworms under this procedure.
