Draft Proposed Action Memorandum for the RCRA Closure of the Solar Evaporation Ponds (SEP) at Rocky Flats is available for Public Comment

The Solar Ponds at the Rocky Flats Environmental Technology Site were used from the late 1950s to 1986 to store and evaporate process waste water containing nitrates, treated acidic waste and low-level radioactive elements. The Ponds and pond sludge were emptied in 1995. The Draft Proposed Action Memorandum (PAM) is the decision document for closing the SEP under alternative RCRA Interim Status closure requirements.

The Public Comment period will run from October 10 until November 11, 2002.

The Proposed Action Memorandum for Remediation of the Solar Evaporation Ponds is available for review at the Rocky Flats Reading Room at Front Range Community College and on the Rocky Flats webpage: www.rfets.gov. For additional information please call Anna Martinez, DOE, at (303) 966-5881 or John Corsi, Kaiser-Hill, at (303) 966-6526.
