Dear Mr. Stewart:

As part of our obligations as a Natural Resource Trustee for the Rocky Flats Environmental Technology Site (RFETS), the Department of Energy (DOE) is hereby notifying you that copies of the Operable Unit 5, Woman Creek Priority Drainage, final RCRA Facilities Investigation/Remedial Investigation (RFI/RI) report are available. Notification of this document availability is submitted as required by the Trustees Memorandum of Understanding to provide for cooperation and sharing of technical expertise among the Trustees and the Environmental Protection Agency (EPA) in integrating and restoring natural resources. Since the draft report is comprised of 5 volumes, DOE requests that those Trustees interested in receiving a copy notify us. DOE will forward, within 2 weeks, a copy to any requester.

If you have any questions, or would like to receive a copy of the document, please contact Dave George, the DOE Environmental Progress Assessment Team Leader at (303) 966-5669.

Sincerely,

A handwritten signature in black ink, appearing to read "Bob April".
