Accelerated Closure of the Industrial Area Operable Units

Wayne A. Fuller, Industrial Area Operable Unit Closures
Environmental Restoration Management
EG&G Rocky Flats, Inc.

I am very aware of your aggressive efforts to pursue accelerated closure of the Industrial Area Operable Units (OU) and understand that the next phases of the OU 8 RFI/RI investigation are critical to achieving these efforts. However, OU 8 Stage II activities should not proceed until formal approval on this Work Plan is received from both the Colorado Department of Public Health and Environment (CDPHE) and the Environmental Protection Agency, which have a dual lead on this OU.

I have prepared a letter to the regulators explaining our desire to start Stage II activities in late August, 1994, making receipt of approval for the OU 8 Work Plan a time-critical task. I intend to make receiving an approval from the CDPHE a priority, and will work to expedite formal approval of the OU 8 Work Plan in such a manner that scheduled field work will not be impacted.

If you wish to discuss this subject further, please call me at extension 7252.

Regina R. Sarter
Industrial Area Operable Unit Manager
Environmental Restoration
Major System Acquisition
