

ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE REGULATORY CONTACT RECORD

Date/Time: April 17, 2002 / 11:00 AM

Site Contact(s): Vern Guthrie
Phone: (303) 966-7419

Regulatory Contact: Dave Kruchek
Phone: (303) 692-5355

Agency: CDPH&E

Purpose of Contact: To present and discuss proposed characterization actions for the Building 991 complex.

Discussion

Facilities included:

Building 991, 991 Tunnels, 984, 985, 989, 992, 993, 996, 997, 998, and 999.

Presentation:

Vern Guthrie presented an overview of the purpose of the meeting and provided an area map showing the locations of the Type 1 and 2 buildings as they are currently identified. He explained that characterization activities were planned for this FY, but due to other building priorities, some work may be moved into early FY03.

Vern explained that removal of the buildings is scheduled for FY03 and early FY04. Material Stewardship's shipment of waste from Building 991 may push the schedule out, as certain waste may not have a shipping location approved.

Duane Parsons provided a packet of characterization information for review and comment. Included were maps identifying buildings within the cluster and Historical Site Assessment Reports for each building. Also included were Radiological Characterizations Plans for the interiors and exteriors of Type 1 and Type 2 facilities and Chemical Characterization Plans for both Type 1 and 2 facilities. A suggestion was made to remove 996, 997, 998, and 999 from the exterior plan as sampling cannot be performed on them.

Dave Krucke was concerned that Beryllium may be in between layers of paint within the tunnels and possibly other areas of Building 991. Duane will address this concern during the Reconnaissance Level Characterization Report. Dave's other concern was with Building 984 being identified as a Type 1 facility. The survey work will verify the typing.

Steve Tower expressed the same Beryllium concerns as Dave for buildings on site and what the effects would be during demolition.
