Mr. Joseph A. Legare
 Assistant Manager for Environment and Infrastructure
 U.S. Department of Energy, Rocky Flats Field Office
 10808 Highway 93, Unit A
 Golden, CO 80403-8200

RE: Approval of the Modification to the Facility Component Removal, Size Reduction, and Decontamination Activities RSOP

Dear Mr. Legare:

This letter is in response to an email sent by Rick DiSalvo of your office requesting a letter of approval from the Environmental Protection Agency (EPA) in regards to the modifications made to the above mentioned document.

EPA approval of minor modifications for the document is not required. However, we are in agreement with the changes sent in your August 15, 2002 letter, notifying us of the minor modification to sections 3.1 and 3.5 of the Component RSOP. These changes provide more definitive clarification for the use of the surface contaminated object criteria as well as identifying that certain leaded glass do not render a removed glovebox a hazardous waste.

If you have any questions or concerns please feel free to contact me at (303) 312-6293 or Mark Aguilar at (303) 312-6251.

Sincerely,

 Timothy Rehder,
 Rocky Flats Team Leader
