

**ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE
REGULATORY CONTACT RECORD**

Date/Time: August 7, 2002/ 1430
Site Contact(s): Steve Nesta and Steve Tower
Phone: 6386 and 2133
Regulatory Contact: Dave Kruchek
Phone: 6728
Agency: CDPHE

Purpose of Contact: Clarify requirements for ER/D&D Interface for B442/662/663

Discussion

A meeting was held with KH, DOE, and CDPHE to resolve the issue of proper notification for the B442, B662, and B663 slab and sewer pipe removals. It was agreed that it was not correct to split a single facility into two separate types (the uncontaminated building as Type 1, and the contaminated slab as Type 2). Instead, the proper path for future projects will be to submit a RSOP notification for a facility as a Type 2, identify the free releasable portions, and transfer the remaining portions such as contaminated slabs to ER, for remediation as debris for remediation under the ER RSOP.

For the work that has been done to date, it was further agreed with CDPHE that a new Facility Disposition RSOP notification letter will be submitted to identify work at B442, B662 and B663, that has been transitioned to the ER RSOP. At B442, the slab, and the sewer pipe was left in place after building demolition because of fixed contamination. ER has subsequently removed the B442 slab and removed the sewer pipe to greater than six feet below grade (ER Notice #02-06). Because the slabs at B662 and B663 are contaminated, they were left in place to be removed by ER under the ER RSOP (ER Notice # 02-07). The new RSOP notification letter will address these issues formally.
