REGULATORY CONTACT RECORD**

Date/Time: January 22, 2003/ 2:00 pm.

Site Contact(s): Alec Cameron
Phone: (303) 966-4787

Regulatory Contact: James Hindman
Phone: (303) 966-4482 / (303) 966-6687

Agency: Colorado Department of Public Health and Environment

Purpose of Contact: RCRA Closure of B428

Discussion

The purpose of the meeting was to request permission to Demolish Building 428 prior to the formal RCRA closure report (pending an approved PDS report)

History

Process equipment internal to Building 428 (piping, pumps, and the tank) was removed and disposed of as Low Level Mixed waste. The berm area, secondary containment for the RCRA equipment, was then washed with soap and high pressure water per the approved 400 Area CDD. Two pieces of the tank that are attached to the tank foundation were also washed with soap and high pressure water per the approved CDD (see attached pictures).

Both the berm area and the remaining "ribs" of the tank were rinsed following the criteria specified in the CDD. The resultant rinseate met the criteria specified in the approved 400 Area CDD and therefore Building 428 meets clean closure under RCRA. The formal report, signed by a Professional Engineer, will be submitted at a later date when the remainder of the 400 area is completed, and incorporated into the closure summary report.

Plan

The PDS report, demolition plan, environmental checklist will be completed and run through their normal process prior to demolition of B428.

Results

The attached table summarizes the results from the rinseate for the floor, walls, and remaining tank ribs. All results are below the limits in the approved 400 Area CDD.

Agreement

Mr. Hindman agreed with the following:

- Building 428 is RCRA closed and may be demolished pending an approved PDS, demolition permit, and environmental checklist.
- Kaiser Hill will submit the final closure report for Building 428, signed by a Professional Engineer, at a later date along with the closure report for the remainder of the 400 area.
