INTEROFFICE MEMORANDUM

DATE: November 29, 1999

SUBJECT: NEPA DETERMINATION FOR FY00 NON-RADIOACTIVE WASTE SHIPPING - SMN-158-99

I have reviewed the project to ship non-radioactive waste off-Site during FY00. It is my understanding the volumes shipped during FY00 will increase by about 10 m³ over volumes shipped in FY99 (FY99= 88 m³, FY00 (projected)= 98 m³).

No environmental compliance issues have been raised at this time.

With regard to NEPA documentation, I find that this project meets the criteria specified in the Site Standing Categorical Exclusion (CX) RFFO/CX 13a-98 (B1.30) for transportation of materials and therefore provides coverage for this project. No further NEPA review or documentation of the project is necessary and, from a NEPA perspective, the project may proceed.

If changes arise, altering the scope of the project, please contact me so that we can review the changes for NEPA compliance. Please do not hesitate to contact me at X6386 if you have any questions or need additional information.
