INTEROFFICE MEMORANDUM

DATE: November 23, 1999
TO: S. Hahn, K-H, Bldg 130, X9888
FROM: S. M. Nesta, K-H/ESS, T130C, X6386 *smn*
SUBJECT: NEPA DETERMINATION FOR BUILDING 664 UPGRADES - SMN-157-99

I have reviewed the project to enhance the safety features in the highbay of Building 664. I understand that air conditioning, permanent lights, and other minor changes to the facility will be installed.

There are no environmental compliance issues at this time.

With regard to NEPA documentation, I find the Site Standing Categorical Exclusion (CX) RFFO/CX 28-96 (B2.1) for modifications to an existing structure to enhance workplace habitability, such as improvements to lighting, radiation shielding or HVAC systems provides coverage for this project. No further NEPA review or documentation of the project is necessary and, from a NEPA perspective, the project may proceed.

If changes arise, altering the scope of the project, please contact me so that we can review the changes for NEPA compliance. Please do not hesitate to contact me at X6386 if you have any questions or need additional information.
