Section A. Facility Data

Facility No.	281 and S281
Facility Descriptor:	Landfill Support Facilities, 522 square feet
Project:	RISS – Area 3 D&D
Date of Demolition:	September 9, 2002
Additional Information:	Building 281 was a single story fiberglass building on a concrete pad. S281 was a single story sheet metal building on a concrete pad. There were no underground utilities to S281. The buildings were demolished and disposed of as sanitary waste as part of the 280 Landfill Complex Demolition.. The concrete pads were sent for onsite recycle. Building 281 utilities were removed to four feet below grade and grouted. A map of utility disconnect locations is provided and a copy will also be submitted to the AR. Site restoration will be performed during the final land configuration for Rocky Flats.

(Must include information on environmental releases and conditions of site at turnover to Environmental Restoration)

D. Section B. Final Characterization Data

Reconnaissance Level Characterization Report <i>(concurrence received)</i>	Reconnaissance Level Characterization Report for Group D Buildings – Concurrence, Steven H. Gunderson to Joseph A. Legare, dated August 21, 2002, attached.
In-process Characterization	N/A – Type 1 Building
Pre-Demolition Survey Report <i>(approval received)</i>	N/A – Type 1 Building
Post-Demolition Survey Report <i>(as necessary)</i>	N/A – Type 1 Building

Section C. Waste Data (complete categories as appropriate)

Sanitary Disposal

Disposal Site:	Front Range Landfill, Erie, Colorado
Waste Volume (m³):	32.8 Cubic meters
Waste Weight (tons):	11.8 tons
Additional Information:	Above grade building debris.

Hazardous Disposal

Disposal Site:	Kettleman Hills Facility, Kettleman City, CA or Bethlehem Apparatus Co, Hellertown, PA
Waste Volume (m³):	Minor amounts
Additional Information:	Electronic circuit boards, thermostats, exit signs, batteries, fluorescent light bulbs and any other RCRA hazardous components were removed and taken to the RFCA temporary unit for combination with like waste streams for disposal.

TSCA Waste Disposal

Disposal Site:	Salesco, Phoenix, AZ; Clean Harbors Deer Park, Deer Park, TX; or BFI Tower Rd. Landfill, Commerce City, CO
Waste Volume (m³):	Minor amounts
Additional Information:	PCB ballasts were removed and taken to the RFCA temporary unit for combination with like waste streams for disposal.

Asbestos Waste Disposal

Disposal Site:	
Waste Volume (m³):	N/A
Additional Information:	

Low-Level Waste Disposal

Disposal Site:	
Waste Volume (m³):	N/A
Additional Information:	

Low-Level Mixed Waste Disposal

Disposal Site:	
-----------------------	--

1/4

Waste Volume (m³):	N/A
Additional Information:	
Recycled Material	
Recycle Facility:	
Waste Volume (m³):	N/A
Additional Information:	
Recycled Material	
Recycle Facility:	RFETS Concrete Staging Pile - 850
Waste Volume (m³):	22.5 cu. m
Additional Information:	Concrete for on-site backfill
Property Disposition	
Receiver Locations (major items only):	N/A
Volume (m³):	
Weight (tons):	
Additional Information:

RE: Reconnaissance Level Characterization Report (RLCR) for Buildings 452, S452, T428B, T452A, B, D, E, F, and G - Concurrence

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the RLCR for Buildings 452, S452, T428B, T452A, T452B, T452D, T452E, T452F, and T452G, as provided in the Group 12 Cluster Closure Project Revision 0 dated December 12, 2001, which was received on January 22, 2002. Based on the information contained in this RLCR, we are hereby concurring with the Type 1 designation for Buildings 452, S452, T428B, T452A, T452B, T452D, T452E, T452F, and T452G.

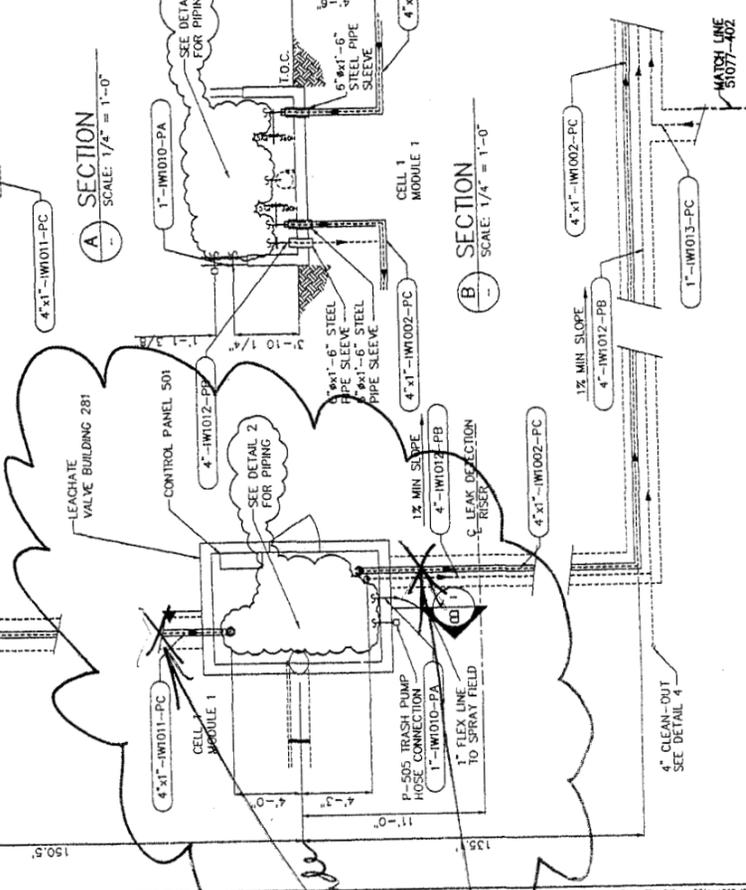

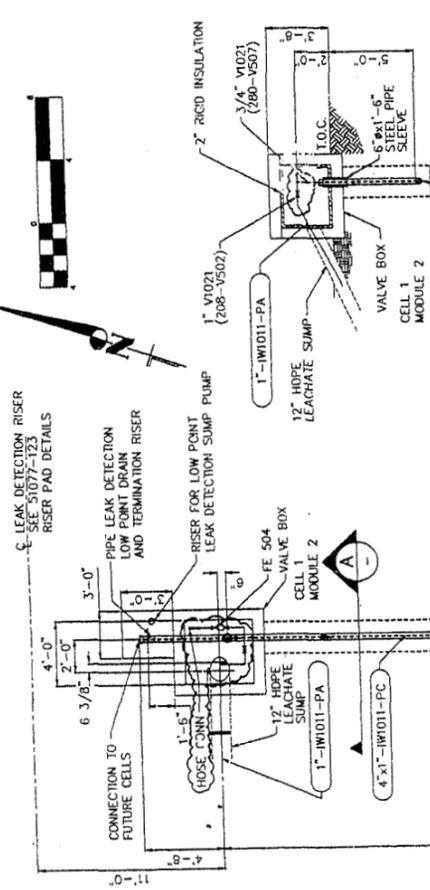

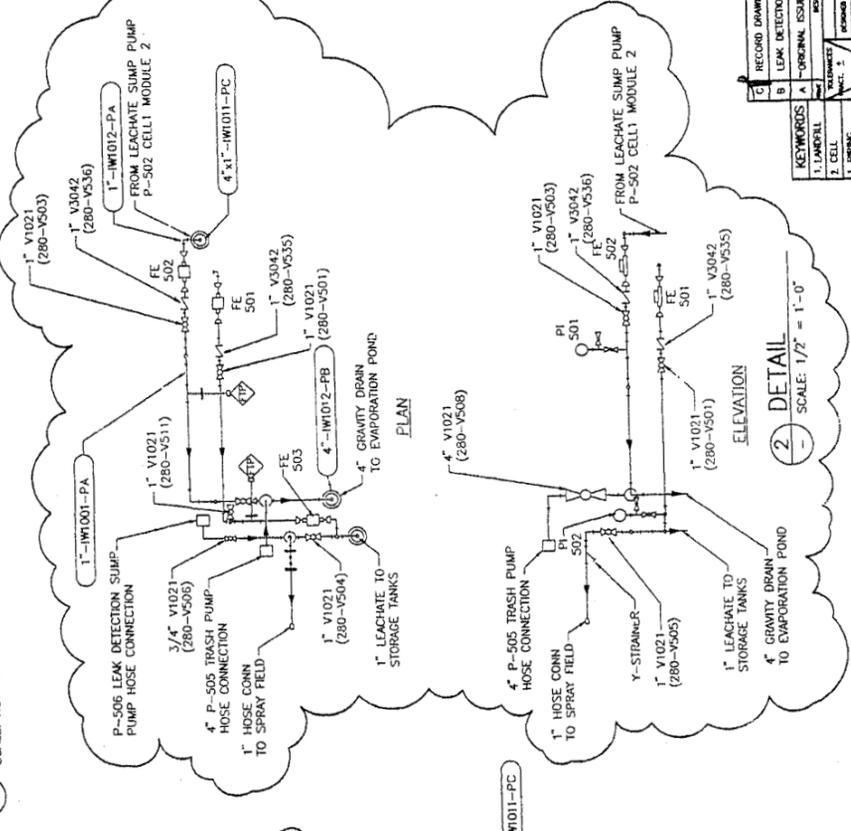

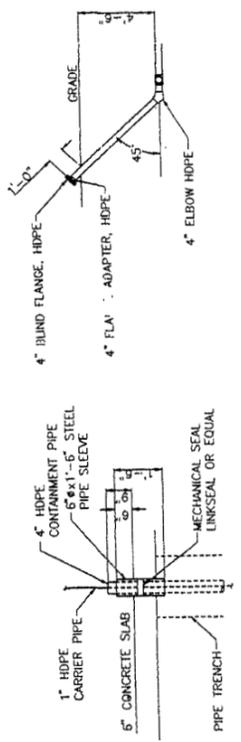

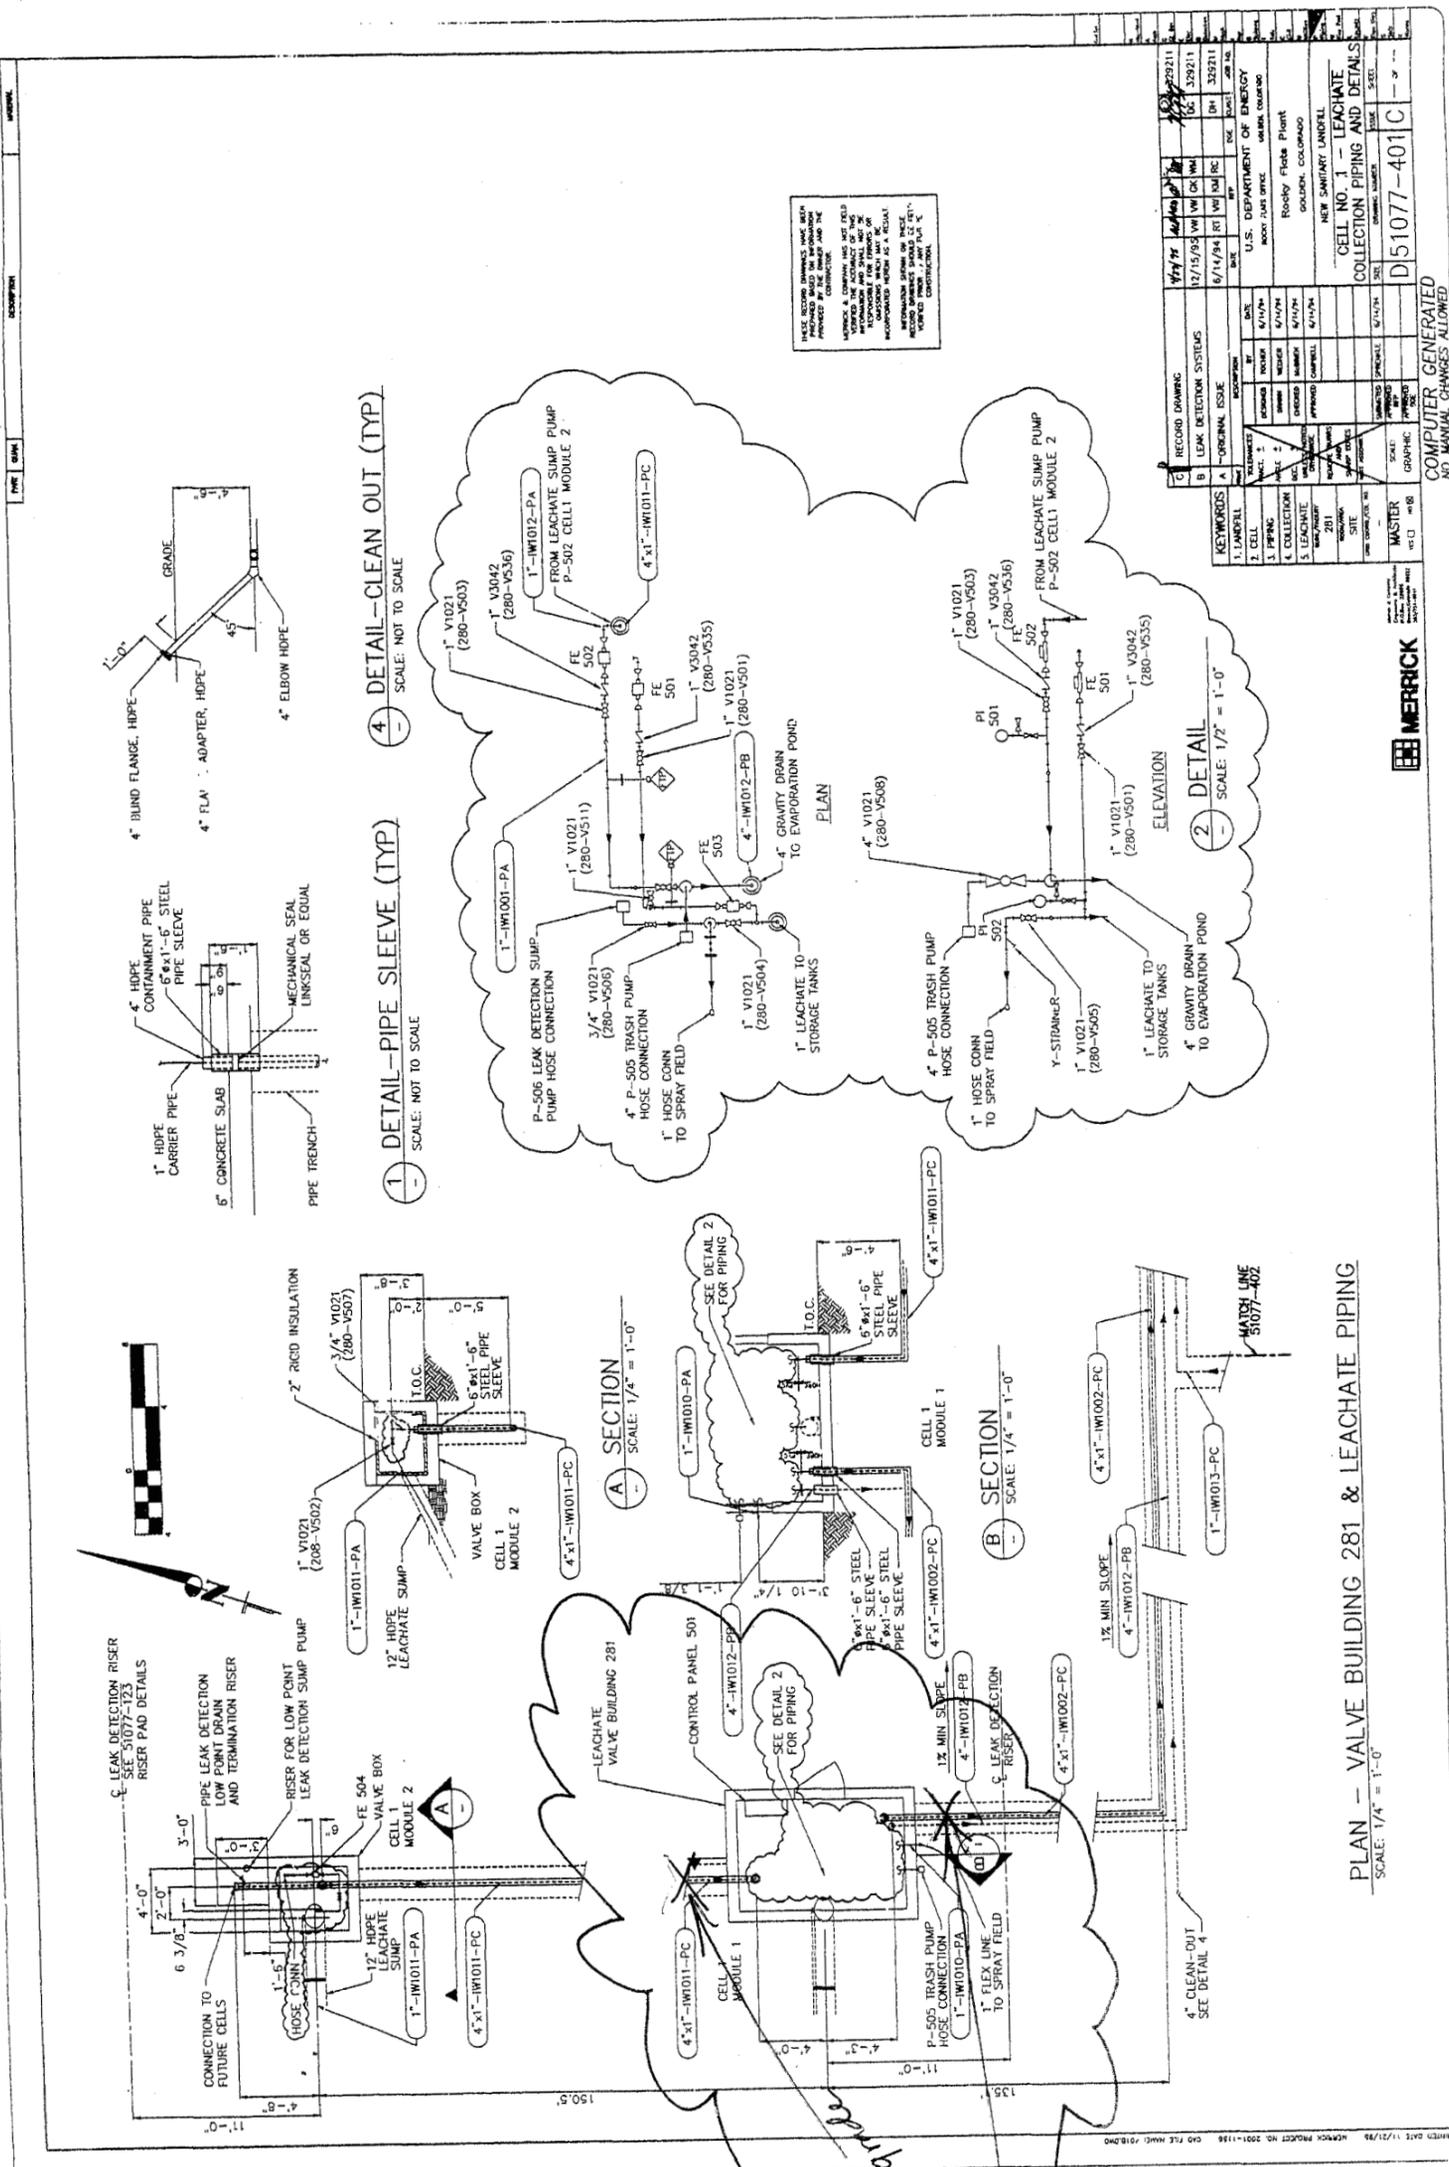

Although these buildings are currently identified as Type 1 Facilities, it is recognized that some of these facilities may still be in use. As such, even with "isolation controls" (posting/signs) contamination may inadvertently be carried or brought into these facilities. Therefore, additional assessments including investigations should be performed upon termination of active utilization. It is specifically indicated that a PDS will be performed on T452C. The consultative process should be utilized to acquire and provide this information prior to final disposition of these facilities.

If you have any questions regarding this correspondence please contact me at (303) 692-3367 or David Kruchek at (303) 692-3328.

Sincerely,

Steven H. Gunderson
RFCA Project Coordinator
