

Type 1 Facility Closeout Report

Section A. Facility Data	
Facility No.	Building 372 and 372A
Facility Descriptor:	Building 371 Guardhouse and PACS 2
Project:	Building 372 and 372A Closure Project
Date of Demolition:	9/10/03
Additional Information:	Buildings 372 and 372A were single story reinforced concrete buildings on concrete slabs. The buildings and the slabs were demolished and disposed of as sanitary waste. The underground utilities; gas, water and sanitary drain, were removed to three feet below grade and capped. A map of utility disconnect locations is provided and a copy will be submitted to the AR. Underground electrical was disconnected and the wires pulled from the conduit. An emergency power diesel generator located north of B372A was removed and sent for resale. Site restoration will be performed during the final land configuration for RFETS. No other buildings are included in this RLCR.

RE: Reconnaissance Level Characterization Report (RLCR) for Buildings 372 and 372A -
Concurrence

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the RLCR for Buildings 372 and 372A Closure Project, Revision 0 dated July 15, 2003. Based on the information contained in this RLCR we are hereby concurring with the determination that Buildings 372 and 372A are Type 1 Facilities.

In addition, since these facilities are still being used, a minimal investigation may need to be performed to confirm that contamination of these facilities has not occurred prior to initiating demolition activities. This final investigation should be coordinated with us utilizing the consultative process.

If you have any questions regarding this correspondence please contact me at (303) 692-3367 or David Kruchek at (303) 692-3328.

Sincerely,

Steven H. Gunderson
RFCA Project Coordinator
