REGULATORY CONTACT RECORD**

Date/Time: 6/6/05 – 1630

Site Contact(s): Duane Parsons (RISS) – (DAP-032)
Phone: (303) 966-6458

Regulatory Contact: David Kruchek, CDPHE
Phone: (303) 692-3328

Agency: CDPHE

Purpose of Contact: Building 994 Demolition

Meeting Attendance

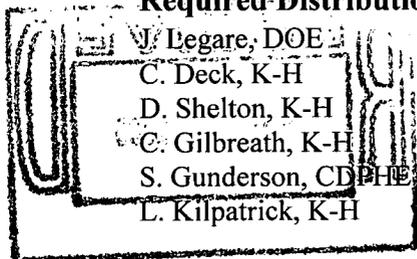

D. Kruchek, CDPHE D. Parsons, K-H

Discussion

Building 994 is a small metal shed (approximately 7'x7'x7') located between B-Ponds B-4 and B-5. The building was a weather shelter for a surface water monitoring station. There is no electrical power or other utilities associated with the shed. Based on the very low probability of any type of contamination inside or outside of the building, this facility can be demolished utilizing the WRE (Waste Release Evaluation) process rather than performing a RLC (Reconnaissance Level Characterization). A Waste Release Evaluation will be performed for disposal of the building debris. WRE radiological surveys of the building will be performed prior to demolition and the results disseminated to DOE and CDPHE. This approach was discussed and concurred with during a phone conversation held June 6th, 2005.
