Mr. Steven H. Gunderson  
Rocky Flats Cleanup Agreement Project Coordinator  
Colorado Department of Public Health and Environment  
4300 Cherry Creek Drive South  
Denver, Colorado 80246-1530

Dear Mr. Gunderson:

In accordance with the Rocky Flats Cleanup Agreement (RFCA) Standard Operating Protocol (RSOP) for Component Removal, Size Reduction and Decontamination Activities, this letter and its enclosures is notification for RSOP implementation. This notification is for all activities required to bring Building 440 to the unrestricted release criteria with the exception of RCRA unit closure. This will involve component removal, size reduction and decontamination activities utilizing the methods specified in the RSOP.

Open/active RCRA units associated with this facility will be closed in accordance with the previously submitted Closure Description Document (05-RF-00149, March 3, 2005, approved by the Colorado Department of Public Health and Environment on March 29, 2005). Once the pre-demolition survey is complete and the facility meets the unrestricted release criteria, an additional notification letter will be prepared to implement the RSOP for Facility Disposition.

Kaiser-Hill Company, LLC (Kaiser-Hill) or a subcontractor will conduct this work. If Kaiser-Hill or the subcontractor would like to use a method or process not included in the RSOP then they are required to notify and, in consultation with Department of Energy/Lead Regulatory Agency (DOE/LRA), the RFCA process for decision document modification will be used.

The appropriate checklists and information required by the RSOP are enclosed with this letter and should provide the necessary information. This work will be conducted in accordance with the work control documentation prepared by Kaiser-Hill or the subcontractor. The exact methods and process selected by Kaiser-Hill or the subcontractor and progress of the activities will be communicated to DOE/LRA through the consultative process, particularly the monthly Remediation, Industrial D&D, and Site Services production meetings. The facility will not be breached during the activity.

It was agreed by your staff and J.M. Swartz that Building 440 would be considered a Type II facility and would not require a Reconnaissance Level Characterization Report.
