FOR FACILITY DISPOSITION –
NOTIFICATION LETTER FOR BUILDING 440 WESTSIDE**

The scope of this demolition will include Building 440 Westside.

Building 440 Westside was an anticipated Type 2 facility. The Reconnaissance Level Characterization Report (RLCR)/Pre-Demolition Survey Report (PDSR) - DWF-038-05, dated June 1 2005, documents the condition of Building 440 Westside. As stated in the RLCR/PDSR, B440 did not meet the unrestricted release criteria (6300 dpm/100 cm²) prior to application of a fixative to the floor of room 123; after the application of the fixative the floor in this room will be demolished and disposition as low-level waste.
