1/16

1.0 INTRODUCTION

The purpose of this report is to certify that documentation is present of the Rocky Flats Environmental Technology Site (RFETS) (EPA ID No. CO7890010526) Resource Conservation and Recovery Act (RCRA) Unit Closures approved by the Colorado Department of Public Health and Environment (CDPHE). Section 2 describes the methodology used in identifying RFETS RCRA units and their corresponding closure documentation.

2.0 METHODOLOGY

The RFETS Master List of RCRA Units (dated September 14, 2005) included as Attachment 1, was used as the inventory of RCRA units at RFETS for which documentation supporting closure was to be identified. This listing includes the following types of RCRA units:

- Permitted Units;
- Interim Status Units;
- Mixed Residue Units; and
- Withdrawn Units.

CHPDE has accepted the Withdrawn Units, and verification of closure documentation for these units is not required. CDPHE approval of RCRA unit closure documentation for the remaining units was identified in a variety of forms, including the following:

- Pre-Demolition Survey Report (PDSR) Approval: By approving an RFETS PDSR, CDPHE is approving closure of all RCRA units within a facility and authorizing demolition of a facility, barring any specific comments to the contrary;
- Closure Summary Report (CSR) Approval: By approving an RFETS CSR, CDPHE is approving closure of a RCRA unit(s);
- Closeout Report (COR) Approval: By approving an RFETS COR, CDPHE is approving closure of a facility and associated RCRA unit(s);
- Contact Record (CR): Any additional approvals of RCRA unit closures may be documented in an RFETS Contact Record; and
- Acceptance of RFETS Type I Facility Designation: By definition, an RFETS Type I Facility is a facility that "... any RCRA units have been closed or, if partially closed, the parts of the unit within the facility have been certified as being clean closed ...". (Decommissioning Program Plan, October 1998). By accepting designation of an RFETS facility as a Type I facility, CDPHE is approving closure (or certification of clean closure) of a RCRA unit(s).

Based on the above methodology, documentation of closure of all RCRA units listed in the RFETS Master List of RCRA Units (dated September 14, 2005) has been verified.

Certification of Documentation of RFETS RCRA Unit Closures

The undersigned hereby certify that documentation of CDPHE acceptance of closure of all RCRA units listed in the RFETS Master List of RCRA Units (dated September 14, 2005) has been verified.
