RE: Reconnaissance Level Characterization Report (RLCR) for Buildings 452, S452, T428B, T452A, B, D, E, F, and G - Concurrence

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the RLCR for Buildings 452, S452, T428B, T452A, T452B, T452D, T452E, T452F, and T452G, as provided in the Group 12 Cluster Closure Project Revision 0 dated December 12, 2001, which was received on January 22, 2002. Based on the information contained in this RLCR, we are hereby concurring with the Type 1 designation for Buildings 452, S452, T428B, T452A, T452B, T452D, T452E, T452F, and T452G.

Although these buildings are currently identified as Type 1 Facilities, it is recognized that some of these facilities may still be in use. As such, even with "isolation controls" (posting/signs) contamination may inadvertently be carried or brought into these facilities. Therefore, additional assessments including investigations should be performed upon termination of active utilization. It is specifically indicated that a PDS will be performed on T452C. The consultative process should be utilized to acquire and provide this information prior to final disposition of these facilities.

If you have any questions regarding this correspondence please contact me at (303) 692-3367 or David Kruchek at (303) 692-3328.

Sincerely,

Steven H. Gunderson
RFCA Project Coordinator
