TS-92-90

Mr. Howard Brown, Executive Director
Rocky Flats Environmental Monitoring Council
1536 Cole Boulevard, Suite 150
Golden, CO 80401

Dear Howard:

As we discussed, please forward this letter to Mr. Jim Stone to address questions he submitted to the Monitoring Council at the public meeting on July 31, 1990. Mr. Stone asked about procedures EG&G is using for remedial actions at the 881 Hillside and made reference to a "man-made clay deposit" in the area. Technical Staff from our Environmental Restoration Directorate prepared the following response:

EG&G is using the U.S. Environmental Protection Agency (EPA) procedures for remedial action for the Hillside 881 unit. These procedures are of a general nature and are required to be plant specific. Therefore, all remedial action plans must be approved by CDH, EPA, and DOE prior to action. The approved plan, "Interim Measures/Interim Remedial Action Plan and Decision Document" prepared January 1990 for the 881 Hillside Area O.U. #1, is available for review in the Reading Room at Front Range Community College.

In reference to man-made clay deposits for burial sites, the enclosed map shows the documented areas of known Solid Waste Management Units. If there is a discrepancy, please let us know the area to which you are referring so that further investigation can be done.

Very truly yours,

Terry A. Smith, Manager
Community Relations
