RE: Draft Technical Memorandum (TM) 8 - Identification of Contaminants of Concern: OU 1, September, 1992

Dear Mr. Lockhart,

The Colorado Department of Health, Hazardous Materials and Waste Management Division (the Division), has reviewed the above referenced document submitted by DOE and prime operating contractor, EG&G. The Division's comments are attached. Because of DOE's continued failure to quantitatively evaluate the ground water ingestion and dermal contact pathways, and because of incorrect treatment of hot spots and failure to consider sub-surface soil contamination, the Division hereby **disapproves** this document.

If you have any questions regarding these matters, please call Joe Schieffelin of my staff at 331-4421.

Sincerely,

Gary W. Baughman, Chief
Facilities Section
Hazardous Waste Control Program
