Operable Unit No. 1 Phase III RFI/RI Report and IM/IRA Modification

Ned Hutchins, Acting Associate General Manager
Environmental Restoration Management
EG&G Rocky Flats, Inc.

It now appears the Environmental Protection Agency (EPA) and Colorado Department of Health (CDH) have come to an agreement on the baseline risk assessment issues and the stop work order may soon be lifted for Operable Unit (OU) No. 1. As a result, EG&G is hereby directed to develop a schedule for submitting sections of OU1 Phase III RFI/RI Report to EPA/CDH and providing a formal presentation to obtain their feedback. The format for this task has not changed. The schedule should allow for submittal of sections of the report to EPA/CDH fifteen working days prior to the formal presentation and discussion. Please include a "dry run" of the presentation to RFO at least two days prior to meeting with EPA/CDH.

Secondly, EG&G is directed to prepare a report and formal presentation proposing discontinuing the collection of the 881 Footing Drain water as part of the OU1 IM/IRA. The report is to be submitted to RFO on October 27, 1993, and a "dry run" of the presentation is to be made on October 29, 1993.

If you have any questions, please contact Richard Schassburger at extension 4888.

James K. Hartman
Assistant Manager for Transition
and Environmental Restoration
