RE: Comments - Final Corrective Measure Study / Feasibility Study (CMS/FS), and Response to Comments on the Draft Final CMS/FS for the Rocky Flats Environmental Technology Site (RFETS), Operable Unit 1 , 881 Hillside Area

Dear Mr. Slaten:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the Division), has reviewed the above referenced documents submitted by the Department of Energy (DOE) and its prime operating contractor, EG&G. The Division's comments are attached.

After review of DOE's response to the Division's general and specific comments and the Final CMS/FS, the Division finds that RFETS has adequately responded and resolved many of our comments regarding the OU1 Draft Final CMS/FS. The Division agrees with DOE in that substantial progress has been made in resolving many of EPA's and the State's previous issues through our working meetings.

Several significant issues, however, remain unresolved. Also, DOE's resolution summary was in several instances inaccurate. We are, therefore, also submitting comments on RFETS' responses and resolution to the State's comments.

If you have any questions regarding this matter, please contact Chris Gilbreath of my staff at (303) 692-3371.

Sincerely,

Joe Schieffelin
Rocky Flats Unit Leader
Hazardous Waste Control Program
