It is our understanding that there continues to be a problem with making the Administrative Record File available to the public at the onset of the public comment period on a proposed action. To facilitate DOE's efforts to meet the CERCLA requirement that the Administrative Record File be available to the public at the time of public comment, EPA would be willing to

provide interim review and approval of the Administrative Record File as compiled up to the onset of public comment. Final approval of the Administrative Record would still be required prior to approval and release of the final decision document on a proposed action.

If you have any questions, please call Bill Fraser at (303)294-1081.

Sincerely,

Martin Hestmark, Manager
