PRELIMINARY OPERABLE UNIT (OU) 2 BEDROCK CONTINGENCY PLAN (03637) -
WSB-227-93

EG&G developed a very preliminary Contingency Plan and presented it to Department of Energy (DOE) on March 30, 1993, and to the Agencies on March 31, 1993. At present, EG&G Rocky Flats, Inc. is working to produce a more formal contingency plan which will specify actions to be taken during the current field operations if contamination is encountered in the Lower Hydrostratigraphic Unit (LHSU). This plan will be presented to DOE for approval and will then be submitted for Agency approval.

Please contact A. L. Primrose at extension 8618 if you would like additional information.
