

DOE F. 225.8  
(8-89)

United States Government

Department of Energy

# memorandum

DATE: SEP 11 1990

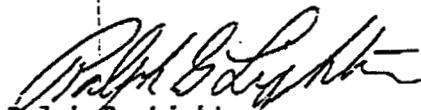

REPLY TO  
ATTN OF: EM-452

SUBJECT: Headquarters Approval for the Release of the Operable Unit 2 Interim Remedial Action Plan

TO: Dave Simonson, Rocky Flats Office

Your request to release the subject document for public review is granted. It is recognized that the Colorado Department of Health (CDH) has declined their prereview of the subject document in their June 20, 1990 letter; however, the CDH reserved their right to comment as a citizen during the formal Environmental Assessment (EA) public comment period. Following the public comment period, the EA will go through EM-1 to EH-1 for approval. As discussed with your staff, a draft Finding of No Significant Impact (FONSI) should immediately be prepared and sent to my office to facilitate DOE meeting the schedule in the Interagency Agreement.

If you have any questions, please contact Mr. John Sands of my staff. Mr. Sands can be reached on FTS 233-3007.

Ralph G. Lightner  
Acting Director  
Division of Southwestern Area Programs  
Office of Environmental Restoration
